

# ONLINE PROFESSIONAL DEVELOPMENT

*Opportunities for Educators*

## WE BELIEVE

Professional development should be chosen and vetted by teachers, flexible, user-friendly, and based on research & best practices. It should incorporate proven instructional strategies that provide opportunities for teachers to practice the concepts in their own classroom.

## PD COURSE ACTIVITIES INCLUDE

- Teachers engage with research based online content.
- Teachers plan, prep, & implement a lesson with their current students.
- Teachers reflect on the lesson and course content via written responses
- After completion, educators will receive a certificate of validation and principals will receive a spreadsheet listing which educators from his/her campus completed which PD courses.

## HOW IT WORKS

We partner with schools to provide their educators access to these online professional development opportunities.
